

Smart Stand Wall™

Smart Connect™

Fast and easy to use

Smart Connect™

Smart Stand Wall™

- Significantly reduces the total cost and the time to mount a stand
- One (1) person can easily mount and take down the walls
- Fast to use - compared to standard aluminium systems
 - 6 times faster to mount (one person mounts 9 walls within 3 minutes)
 - 10 times faster to take down (one person takes down 9 walls within 1,5 minutes)
- Easy to use – minimum of training required
- Low weight, under 15 kg

Smart Stand Wall™

- » Wall with a fibreboard surface
- » The wall is solid. Consequently it is possible to use screws or nails to put up low weight items. When there is damage to the surface it is easy to repair
- » Different surfaces: raw board, primed or painted
- » Standards size: 2,5m/3m x 0,5m/1,0 m in different thicknesses (other sizes available)

Smart Connect™

- » Smart Connect™ is mounted on top of Smart Stand Wall™
- » Patented product
